OLUWATOSIN ALABI

Frontend Developer • Content Creator • Web Developer

+234-810-634-9234 | Primate2580@gmail.com | Ibadan, Oyo State, Nigeria | github.com/primate2580

PROFESSIONAL SUMMARY

Results-driven Frontend Developer and Content Creator with 3+ years of experience building responsive web applications and executing digital marketing campaigns. Proficient in HTML, CSS, JavaScript, Tailwind CSS, WordPress, and Firebase — with hands-on project experience including a CBT application and a Spotify-inspired streaming platform (Phonic). Skilled at translating complex requirements into clean, user-friendly interfaces while producing compelling content that boosts engagement and conversions.

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Firebase

CMS & Tools: WordPress, Git, GitHub (github.com/primate2580), VS Code

Marketing & SEO: Copywriting, SEO/SEM, Email Marketing, Content Strategy

Soft Skills: Communication, Problem-Solving, Attention to Detail, Client Relations

WORK EXPERIENCE

Web Designer & Developer | HGSL / Prime Hub

2022 – Present

- Designed and deployed 10+ responsive WordPress websites, improving average page load time by 30%.
- Implemented email marketing campaigns that increased subscriber engagement rates by 25%.
- Crafted SEO-optimized website templates and content, consistently improving search rankings for client domains.
- Collaborated directly with clients to translate briefs into functional, user-friendly digital products.

Freelance Content Creator | Inspiration Media

2020 – 2022

- Produced and managed content across multiple platforms, contributing to a 40% growth in audience engagement.
- Developed and executed social media campaigns aligned with brand voice and marketing objectives.
- Exceeded quarterly content targets consistently, earning commendations for quality and on-time delivery.
- Applied SEO and SEM strategies to optimize content visibility and drive organic traffic.

PROJECTS

Phonic – Spotify Clone | github.com/primate2580

Tailwind CSS · JavaScript · Firebase

- Built a fully functional music streaming web app with real-time Firebase integration, custom playlist management, and responsive UI.
- Implemented user authentication, song search, and dynamic playback features replicating core Spotify UX patterns.

CBT Application | github.com/primate2580

HTML · CSS · JavaScript

- Developed a Computer-Based Testing platform supporting timed exams, multiple question types, and automated instant scoring.
- Designed an intuitive UI enabling non-technical users to navigate and complete tests without guidance.

EDUCATION

Professional Training in Full-Stack Web & Software Development

SQI Institute of ICT | Class of 2025/26 | In Progress

Higher National Diploma – Computer Science

The Polytechnic, Ibadan | Class of 2024

CERTIFICATIONS & LEARNING

- Full-Stack Web & Software Development – SQI Institute of ICT (In Progress, 2025/26)
